

NIRBHAY PRATAP SINGH

FULL-STACK WEB & AI SOLUTIONS ENGINEER

Location: Jaipur, Rajasthan, India

Phone: +91 8233532622

Email: nirbhaydalia@gmail.com

PROFESSIONAL SUMMARY

Full-Stack & AI Engineer with 3+ years of experience designing scalable enterprise web applications and autonomous AI systems. Expert in **React.js, Node.js, .NET Core, SQL Server, and AI workflows**. Specialized in building end-to-end RAG applications, autonomous AI agents, smart chatbots, prompt engineering, and AI workflow automation. Combines robust full-stack software architecture with modern generative AI engineering to deliver high-performance applications.

WORK EXPERIENCE

Software Engineer I

NewgenDigital

Client: TVS Motor Company | Chennai, India

2022 – 2025

- Engineered responsive UI web portals using **React.js, MobX, and Ant Design** integrated with high-throughput REST APIs.
- Developed and optimized backend dashboard services using **.NET Core C# and SQL Server**, ensuring scalable data pipelines for TVS vehicle booking.
- Designed and deployed email communication services using **SendGrid API** with automated tracking and transactional workflows.
- Designed end-to-end **AI Agent workflows & RAG pipelines** to automate internal data indexing, prompt structuring, and code acceleration using LLM integrations (Claude, GPT-4, DeepSeek).
- Participated in Agile development, leading daily stand-ups, sprint planning, and release documentation.

AI & FULL-STACK ENGINEERING PROJECTS

Autonomous AI Agent & RAG Workflow System

Architected an end-to-end RAG system and autonomous AI chatbot agent utilizing LLM prompt engineering, vector context retrieval, and automated document indexing workflows for intelligent enterprise search.

E-Connect — Collaborative Knowledge Sharing Platform

Full-stack hackathon project enabling anonymous peer learning, interactive knowledge exchange, and real-time community engagement built with React.js and Node.js.

Bewakoof.com & ModeSens — Enterprise E-Commerce Portals

Developed full-stack MERN e-commerce features including OAuth 2.0 authentication, JWT security, payment gateway checkout, and dynamic product filtering.

AI & ML CAPABILITIES

AI Agents

Autonomous Workflows

AI Chatbots

Virtual Assistants

Prompt Engineering

End-to-End AI Systems

RAG Applications

AI Workflow Automation

CI/CD for AI (Learning)

ML Fundamentals

FULL-STACK STACK

FRONTEND

React.js

JavaScript (ES6+)

Tailwind CSS

HTML5 / CSS4

Ant Design

MobX

BACKEND & DB

.NET Core (C#)

Node.js

Express.js

MongoDB

SQL Server

REST APIs

TOOLS & WORKFLOW

Git / GitHub

Postman

VS Code

JIRA

SendGrid

EDUCATION

Full-Stack Web Development

Masai School, Bangalore

Dec 2021 – Nov 2022

B.Tech in Mechanical Eng.

Stani Memorial College of Eng.

Aug 2015 – May 2019

SOFT SKILLS

Team Collaboration • Remote Work • Agile Planning • Fast Learner • Leadership & Mentorship

AI + Full-Stack Focus: Bridging enterprise .NET & React web platforms with cutting-edge AI Agent automation.
